ABBREVIATED 5-DIGIT DIALING

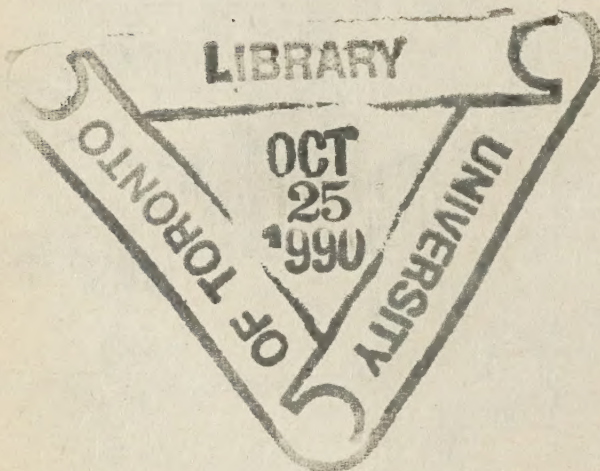

Ontario government users of the old telephone system with 963, 324 and 965 exchanges can continue to use 5-digit, abbreviated dialing within these three exchanges.

Users already converted to the new, Centrex III system can use 5-digit dialing within their two activated exchanges: 326 and 327.

To bridge the gap between users not yet converted to the new system and users already converted, an interim provision is scheduled for implementation sometime within the last quarter of 1990. This interim provision will allow users of both the old and the new systems to intercommunicate by using abbreviated 5-digit dialing.

Of course users outside these exchanges should continue to dial the full 7 digits.

We apologise for any inconvenience during the changeover.

TELECOMMUNICATIONS SERVICES

A complete range of telecommunication services are available to all government users. Services encompass telephone (local and inter-city), fixed and mobile radio communication systems, radio paging systems, data communication systems, facsimile, video, satellite and various other special telecommunication systems.

Both operational and advisory services are provided. Operational services include telecommunication systems design, systems/service acquisition, systems implementation, and the provision and management of common telecommunication services (Centrex services, Inter-City Network). Advisory services include system feasibility studies, systems planning, hardware and software evaluation, project management and coordination and both the preparation of request for proposals and evaluation of supplier proposals. To obtain information or assistance regarding these services, call your MGS Customer Support Coordinator. His/her name and number is located under the Computer and Telecommunications Services Division listings within the Ministry of Government Services section.

ONTARIO COMMUNICATIONS NETWORK

The Ontario Communications Network (OCN) is an enhanced network resulting from the use of computer-based telephone and network management facilities. The Ministry of Government Services—Computer and Telecommunication Services (CTS)—is continuing the implementation of these enhancements across the province.

Once you are converted to the new Network, it will no longer be necessary to know or use the Inter-City Network (ICN) codes. The uniform dialing procedure will automatically connect you to the appropriate line, to reach any of the locations served by the Network.

Over the next few years, the OCN will be extended to various regional centres. After 1990, when high speed “digital” lines become available, the network will become a multi-service one for the transmission of voice, data, graphics, pictures and video information.

Training programs will be carried out for employees in all locations before their telephones are connected to the improved Network. Until your telephone system has been converted, you should continue to use the existing ICN codes.

You can find out more about the Network by calling your MGS Customer Support Coordinator.

If you experience any problems with the OCN, call the CTS Service Desk at 963-3900.

ICN/OCN

INTER-CITY NETWORK

For those locations which have not had enhanced computer-based network services installed, access to the Inter-City Network (ICN) remains as before. If your phone system is enhanced, please refer to the above.

The Ontario Government telecommunications networks enable a caller to dial directly from government centrex lines in Toronto and **consolidated** centres in Kingston, Oshawa and Hamilton, to hundreds of other Ontario localities without incurring a long distance toll charge. **It is to be used only for the conduct of government business by the staff of Government of Ontario Ministries and approved agencies, and members of the Provincial Parliament.**

If you are calling from Toronto exchange 963 or 965, you can use the Inter-City Network to place a call to a point outside the Metro Toronto free calling area. Staff who are served by “stored logic” telephone systems can access the Inter-City Network by referring to the operating instructions provided with that equipment.

The following pages contain a chart listing Ontario cities and towns, and showing the ICN and area codes to be used to access them.

Dial first the numbers shown in the “Inter-City” column, for the locality you wish to reach, then the seven-digit local telephone number.

If no Inter-City number for that locality is shown, you should place your call through regular long distance means. For this purpose, the area codes are also displayed. For area codes of localities not listed, consult your Bell directory, or call the Bell long distance operator.

For information regarding access codes on the Inter-City Network, or to report troubles, call the Queen’s Park operator at 5-1191.

COMMERCIAL STANDARDS PROGRAM

555 Yonge Street
Toronto Ontario M7A 2H6

The components of this program promote a high level of ethical business conduct by ensuring public disclosure of the essential elements of business transactions and the registration and licensing of persons dealing with the public.

The various branches also conduct inspections of the financial operations of the regulated industries. In addition, the program provides services for incorporation of companies and the administration of The Motor Vehicle Accident Claims Fund which handles claims and payments for damage done by stolen, unidentified or uninsured motor vehicles.

The Commercial Registration Appeal Tribunal is the mechanism that allows licensees and registrants to appeal decisions and proposals made by Registrars of regulated industries, and also appeals from decisions or proposals of the Liquor Licence Board. Appeals of decisions regarding compensation fund claims under the ONTARIO NEW HOME WARRANTIES PLAN ACT and the TRAVEL INDUSTRY ACT and Motor Vehicle Dealers' Compensation Fund are also heard.

LEARNING PROGRAMS DIVISION
22nd Floor Mowat Block 900 Bay Street
Toronto Ontario M7A 1L2

This division of three (3) centres and three (3) branches is the focus for the elementary and secondary schools of Ontario. Responsibilities include the development of curriculum and support documents, the effective use of computer technology, arrangements for learning materials and evaluation instruments. In addition, the division is responsible for the coordination of the ministry's participation in adult and distance (correspondence) education, literacy and child care.

This division also assists school boards to respond to the needs of exceptional pupils. It maintains teacher records and assists with the professional development of educators in the elementary and secondary schools in the province.

In addition the ministry has created a new organization: The Learning Programs Secretariat which is responsible for managing the planning, consultation and development of the major government initiatives in education. These initiatives involve the restructuring and redesign of the elementary and secondary education programs in the Ontario school system.

RESIDENTIAL RENTAL STANDARDS BOARD

4th Floor 777 Bay Street
Toronto Ontario M5G 2E5

The Board reviews work orders issued under property standards by-laws and all other health and safety-related legislation. In some areas, the Board also issues its own orders relating to the maintenance of rental housing.

The Board reports to the Minister under the provisions of the Residential Rent Regulation Act, 1986. It reports in cases where failure to maintain a rental building should be taken into consideration in determining the suspension or loss of past or future rent increases.

ONTARIO HIGHWAY TRANSPORT BOARD

10th Floor Britannica House 151 Bloor Street West
Toronto Ontario M5S 2T5

The Ontario Highway Transport Board, an administrative tribunal, recommends to the Minister of Transportation the issuance of and extensions to operating licences for bus for-hire services, approval or rejection of transfers of operating licences and share transfers under THE PUBLIC VEHICLES ACT. Under THE TRUCK TRANSPORTATION ACT, 1988 and THE MOTOR VEHICLE TRANSPORT ACT, 1987 the Board determines the need to hold a public interest hearing and when required holds the hearing. These three Acts require that for-hire bus and truck operators hold an appropriate operating licence.

ALPHABETICAL LISTINGS

Explanatory Notes

PAGE NUMBER

The number in brackets immediately following the employee's given name indicates the Office Listing (yellow) page on which that employee's name appears. For employees whose names are printed *only* in the alphabetical list, no such number appears.

EMPLOYEE LOCATION

The city or town name is shown for each employee, to enable directory users to distinguish between local and long-distance telephone numbers. Before calling any location other than Toronto, refer to the Free Calling area or the Inter-City Network listings included in this directory.

The full address of any employee can be readily determined either by referring back to the appropriate Office Listing (yellow) page using the page number provided, or by telephoning the employee.

An employee's ministry is designated by the following identifiers. These identifiers are for the purpose of this directory only and are not approved designations. Employees of agencies, boards and commissions will be listed as if they were employed by the parent ministry.

I'd like you to meet the Ontario government's new friends – they're the characters you see on the front cover of this directory. They'll be popping up in a lot of places to remind you to Reduce, Reuse and Recycle in your office.

Environment Minister Jim Bradley and I would like to remind you that those 3Rs are the key elements in our waste management strategy for Ontario government employees. Since we announced this program last October, some 40,000 public servants in Toronto have been recycling fine paper, newspapers, bottles and cans in the workplace. Our next step is to have every Ontario government employee in the province join our recycling program.

The Ontario Public Service has become a leader in introducing the 3Rs into the workplace. I'm proud of our accomplishment, and I encourage your full participation.

We welcome your comments and ideas to make our waste management program better. We've set up a waste management hotline to take your calls at (416) 324-3RRR (324-3777).

Chris Ward

Minister of Government Services
